## Eliminator Simulator Systems

All Simulator Systems are Built to Order

### Simulator Overview:

- Features race and display modes
- Display mode attracts users to the simulator by cycling the tree and displaying a promotional message on the display
- Race mode allows users to interact and practice reaction time
- Add a steering wheel assembly for greater user entertainment
  - Steering wheel assemblies are fully customizable!
- Available with:
  - Foot pedals (set up for throttle or clutch)
  - Switch for single / dual user
  - Switches to allow users to select tree speed, tree type, delay box, handicaps & more

### Sound Module Overview:

- Race, practice, play to the sounds of the strip!
- Currently available with sound effects: Top Fuel, Alcohol, Pro Stock Car, Pro Stock Bike, Snowmobile
- Sound module attaches to the back of the Eliminator Super 2000 simulator version
- Connects to a sound system through an 1/8" stereo jack
- Sound system with volume control recommended
- Additional sound effects can be purchased (available as sound cards)
